Front-end web developer utilizing a background in management to create scenic views for users. Recently acquired a certificate in full stack web development from Michigan State University. Skills include HTML, CSS, JavaScript, and Node.js. Strengths include pulling resources creatively as well as taking initiative to expand my knowledge of technologies. I recently worked with a team to create a website that allows users to book flights using mock flight data. I am pleased to be able to gather the vision for the project and translate it onto the web.

TECHNICAL SKILLS

Languages: JavaScript ES6+, CSS3, HTML5, SQL

Applications: GitHub, MySQL

Tools: Express.js, Node.js, Handlebars, JQuery, Bootstrap
