Front End Developer

Front end developer leveraging a background in management to develop websites through strategic decision-making and dynamic problem solving. Recently acquired a certificate in full stack web development from Michigan State University. Skills include attention to detail and team leadership. Strengths include creative thinking, adaptability, and taking initiative to learn the newest technologies. I recently completed a take-home project interview with Hatchways, a platform that matches tech talent with startups. Excited to collaborate with a team to over-deliver on client expectations.

TECHNICAL SKILLS

Web Technologies & Frameworks: React.js, CSS, HTML

Scripts/UI: JavaScript, Material UI, Greensock, Bootstrap, AJAX, JQuery, Handlebars.js

Database and ORM: MySQL, Sequelize, MongoDB, Mongoose, GraphQL, Apollo

Versioning and other tools: Git, Github, Redux, Express.js, Node.js

Deployment tools: Heroku

PROJECTS

Hatchways Chat App | hatchways-chat-app.herokuapp.com | Github on request

React app for 1:1 chat - Front end

- Corrected bugs, designed login and made mobile-responsive, developed a feature to send images.
- React, MaterialUI, Cloudinary API, Socket.IO
